

# 4th IBERIAN MEETING **on** CMR **and** CCT

Jun  
21<sup>st</sup>-22<sup>nd</sup>  
2024  
ANJE Auditorium  
Porto

**14h00**

**Opening Session**

**Session 01**

**14h00-15h30**

**How do I do it? Practical aspects in cardiac MR and CT in my daily routine (protocols, post-processing and interpretation)**

Parametric mapping of the myocardium

4D Flow

CT planning for mitral and tricuspid valve percutaneous interventions

Myocardial ECV quantification using CT

**15h30-16h00**

**Coffee Break**

**Session 02**

**16h00-17h30**

**Paradigm shift in imaging coronary artery disease**

What's missing in the current CCS guidelines?

Guiding CAD therapy with cardiac CT: are we there yet?

Cardiac MRI and CT in revascularized patients with chest pain

Non-invasive imaging to guide management in INOCA

**17h30-18h00**

**Great Debate 01**

**CAC scoring vs CTCA in risk stratification and screening**

CAC is the best

CTCA for all my patients

**Imaging Cases Contest**

**18h00-19h00**

# 4th Iberian Meeting on CMR and CCT

Saturday, 22nd June

## Session 03

08h30-10h00

### CMR in Myocardial Disease

Cardiac MR in Hypertrophic Cardiomyopathy: from guidelines to the the future

Myocarditis and Arrhythmogenic Cardiomyopathy: a (not so) uncommon combination

Challenges in diagnosis and staging of infiltrative diseases - Fabry disease and Amyloidosis

Dealing with common dilemmas in cardiac imaging in Sports Cardiology: fibrosis, excessive trabeculation and beyond...

10h00-10h30

Coffee Break

## Conference 01

10h30-11h00

Conference

11h00-12h30

## Session 04

The new world of cardiac MR and CT

New advanced applications in cardiac MRI

New advanced applications in cardiac CT

Upcoming clinical Trials in CMR and CT

AI in my clinical practice: what is ready for prime time and what does the future hold?

## Industry Simposia

12h30-13h00

## Lunch Break

13h00-14h00

# 4th Iberian Meeting on CMR and CCT

Saturday, 22nd June

14h00-14h30

## Great Debates 02

Are we ready to get rid of non-compaction cardiomyopathy?

In favour:

Not yet:

## Conference 02

14h30-15h00

Conference

15h00-16h30

## Session 05

Current and future trends in the use of CCT and CMR in Valvular Heart Disease

CMR for defining optimal timing of intervention in asymptomatic valve disease

Future applications of 4D-Flow CMR imaging beyond aorta

Multimodality imaging in patients with suspected cardiac infection

CT Fusion Imaging for guiding percutaneous valvular interventions

## Imaging Quizz: Portugal vs Spain

16h30-18h00

18h00

The best case awards and closing remarks
